

Columbus Academy
Bus Transportation Information
2021-2022

Columbus Academy families are responsible for students' transportation to and from campus. There are several public school districts in the Columbus area that provide transportation for CA students, listed below. **Parents need to monitor their local district for school closings, when busses may not run, due to inclement weather, etc.**

Each school district handles its transportation services differently. **Families contact the school district directly for forms, route information and applications.** The exception is Columbus City Schools (CCS) where CA collects request forms and submits them to CCS on behalf of the CA families.

For questions, please contact Chris Cea, Admissions, at 614.509.2220 or ceac@columbusacademy.org.
